Privacy Notice

The information collected on this form by EMR Vendors will be shared with the EHR Access Team and the EMR Operations Team at the New Brunswick Department of Health for the purposes of assessing EMR users requests to access eHealthNB Integrations and granting or denying these requests.

By signing up for provincial integrations, each User authorizes its Electronic Medical Records Vendor to disclose the following information to GNB for auditing purposes as required: User Full Name, EMR User ID, EMR ORG ID, and current status (active or inactive).

eHealthNB EMR Integration Access Request Form

[Submit completed forms to EMRAdmin@gnb.ca](mailto:EMRAdmin@gnb.ca)

EMR Vendors must complete and submit this form to New Brunswick Department of Health (DoH) to start the process of enabling EMR users to access eHealthNB Integrations (Client Registry, ECV and Electronic Laboratory Results) either for new or existing clinics or users.

These integrations are only available to Certified EMRs that have successfully completed the required integration and conformance.

Forms must be completed electronically in either .docx or .pdf format, scanned forms will be rejected.

Before submitting the form, EMR Vendors must:

1. **Verify with the users** listed on the form that their user information is complete, correct and up to date;
2. **Inform the users** that
 - a. Information collected on this form will be shared with the EHR Access Team and EMR Operations Team at DoH to assess their request and enable their access to eHealthNB Integrations; and
 - b. Employees from the EHR Access Team and/or EMR Operations Team at DoH may contact both the EMR Vendor and users to request or validate details if required and based on applicable processes, before granting access to eHealthNB Integrations; and
 - c. No access can be granted without the submission of this form and before it has been assessed by the EMR Operations Team at DoH.

Fields marked with an asterisk (*) are mandatory and must be completed for the request to be processed.

Definitions:

The integrations available to Certified EMRs in New Brunswick are defined as:

1. **Client Registry** – EMR users can search the Client Registry to access demographic information for patients that are being registered in their EMRs. Once configured, **every** user in the EMR can search the Client Registry.
2. **ECV** – the EHR Clinical Viewer allows EMR users to access the Electronic Health Record from within their EMR, without having to switch applications and login again. This needs to be configured for **each** user individually.
3. **Electronic Laboratory Results** – Physicians and Nurse Practitioners using EMRs can register to receive electronic copies of laboratory results from provincial laboratory facilities. This integration needs to be configured for **each** clinical user (Physician or Nurse Practitioner) individually.

For more information on Provincial EMR Integrations please refer to <https://hpspub.gnb.ca/EMR/Pages/Certified-EMRs.aspx>
